

COME FLY WITH JETPRO!

**“I want to work with people
who understand aviation.”**

– Aviators and Flight Attendants

ATTENTION AVIATORS AND FLIGHT ATTENDANTS

**JetPro Pilots is a professional staffing company built on the core principles of
Simplicity, Technology, Integrity, Service and Relationships.**

- Owned and operated by professional pilots
- Connecting qualified crew members to flight operations across the nation
- Wide range of business aircraft
- Temporary as-needed coverage, as well as full-time placement services
- And more

Aviation directors, chief pilots and HR professionals from small flight departments to Fortune 100 corporations rely on JetPro's extensive nationwide network of pilots and crew.

**JETPRO
PILOTS**

*Your Single Source
for Pilots and Crew.*

YOUR TRIP. OUR CREW. READY WHEN YOU ARE.

If you're looking for temporary (as-needed) work, consider *JetPro Trip*™

As the professional contracting agency, JetPro becomes your employer of record, issuing a W2 instead of a 1099. Our business model is set up to make things simple and straightforward. Benefits include:

- 1) **Free & Easy Signup** – To get started, go to www.jetpropilots.com/careers and click on Temporary Crewing. This will lead you to our exclusive **CrewTrac**™ system, allowing you to complete a brief online application as a first step.
- 2) **Fast Pay** – Our crew members love our weekly payroll cycle that ensures wages and expenses get paid fast! JetPro is 100% direct deposit.
- 3) **No Minimums & No Obligations** – Signing up with JetPro means you could have trips offered to you, but you are not required to accept a minimum number of them or any at all. Everything is on a trip-by-trip basis, and our schedulers will work directly with you to check your interest and availability for each trip opportunity.
- 4) **Simple Wage & Expense Reports with *TripTrac*™** – By signing up with us, you will get free access to our **TripTrac**™ mobile reporting app for wages and expenses. **TripTrac**™ uses the camera on your smartphone to take photos of your receipts and load them into the app. Add in a few details about the trip, including the trip dates and your daily rate, and hit “submit” and you're done.
- 5) **Less FICA Tax** – Independent contractors typically pay the employee and employer portions of the FICA tax. However, as the employer of record, JetPro pays the employer portion of the FICA tax on your behalf, typically saving you 7.65%.
- 6) **Insurance Coverage** – By flying with JetPro, you are protected under our workman's comp program. Not only does this help protect JetPro and our clients in the event of injury, but it also helps protect you and your family. JetPro also carries commercial general liability insurance, which adds an additional layer of protection to the entire operation.
- 7) **Pre-tax 401(k) contributions** – If you are an independent contractor and perhaps do not have a retirement plan available to make pre-tax contributions, we can help you get set up with making pre-tax contributions toward your retirement via JetPro's payroll. Contact our office for details.

FULL-TIME PLACEMENT OF PILOTS AND CREW.

We also offer full-time placements with *JetPro Recruit*™

If you're looking for your next full-time position, keep JetPro in mind. We partner with many Part 91 and part 135 operators across the country as they perform their job searches. Our specialization in this industry gives us a distinct advantage to finding crew members based on our clients' needs. Here are a few points about our program:

- **Find the right position for you.** To see the current positions we have open on behalf of our clients, go to www.jetpropilots.com/careers and click on Full-Time Placement.
- **Trial Period Available.** For Part 91 operators seeking full-time pilots, a trial period is often utilized with our **JetPro Recruit**™ program. During the trial period, our clients will have candidates fly with them (usually as a paid contract trip) and their other crew on one or more Part 91 trips before making a final hiring decision. This is good for the hiring company, but also good for our crew members, to ensure there is a good fit on both sides.
